Summary

Detail-oriented and motivated junior software engineer seeking a challenging position to apply and enhance my programming skills in a collaborative and innovative environment. Committed to delivering high-quality software solutions by leveraging strong problem-solving abilities and passion for continuous learning.

Tech skills

- **Programming languages:** HTML, CSS, JavaScript, C#, SQL.
- **Platforms and technologies:** C#.NET, ASP.NET Core (MVC, Razor), WinForms, Web apps.
- **Databases:** SQL Server, Sqlite.
- **Tools:** Visual Studio, Visual Studio Code.
- **Version Control System:** Git.
- **Operating System:** Windows.

Soft skills

Problem-solving, critical thinking, teamwork, self-learning, time-management, accountability, emotional intelligence, adaptability, creativity.

Projects

- [Web Weda](#) – software system of astronomical, astrological and numerological calculations. A university graduation project (web app), is currently a deployed pet project (C#.NET, ASP.NET Core, MVC, Razor, Sqlite, ADO.NET, HTML, CSS, JavaScript).
- [Astro processor](#) – a student desktop project for the OOP course. It involves astronomical, astrological and numerological calculations, as well as the analysis and grouping of result information (C#.NET, WinForms, Sqlite, ADO.NET).
- [Info system](#) – a student desktop project for the relational database course (C#.NET, WinForms, SQL Server, ADO.NET).
- **Front-end:** other small web apps (HTML, CSS, JavaScript).

Education

- Kharkiv National University of Radioelectronics
Software engineering – [Bachelor degree](#) (with honors)
September 2021 – August 2023 | Country: Ukraine
- Self-education
Full stack
September 2023 – up to now

Additional info

I'm a visually impaired person, 1-st degree disability due to industrial injury. Programming is my new pursuit, and I enjoy it!
